Eric --- Sorry to bother you again but remember something else. Security --- what do you have at Alpha and Charlie? Can the agreement/contract be terminated and are there any penalties associated with terminated the contract early? Will you want to keep the security as long as the trailers and associated infrastructure is in place?

It's going to take 5 or 6 days for the sub contractor to get all 20 trailers removed from Alpha site, clean up and return the facility to the Shriners.  
About 5 or 6 days to do the same at Charlie Branch and clear with airport.  
Copier is on a monthly lease \$600. Flat rate  
HCI will drive MCP back to Addison  
Cost to have Charlie MCP's approx \$3000

Generators covered by trailer contract  
We will close out one site at a time. 2 weeks is a good estimate on time  
Total cost is approximately 3K to demob both sites.  
That's if there's no repairs to the Shriners facility or airport parking lot required upon inspection.

They to be able to take the costs to your RA for him to make an informed decision
